    elements?

○ A) y-index

◉ B) z-index

○ C) x-index

○ D) all of the mentioned

✓   What will be the output of the following JavaScript code? *   1

```
<p id="demo"></p>
<script>
var js = 10;
js *= 5;
document.getElementById("demo").innerHTML = js;
</script>
```

○ A) 10

◉ B) 50

○ C) 5

○ D) Error

✓ What will be the output of the following JavaScript code? *

```
// JavaScript Comparison Operators
function compare()
{
    int num=2;
    char b=2;
    if(a==B)
        return true;
    else
        return false;
}
```

○ A) false

⦻ B) true

○ C) compilation error

○ D) runtime error

✓ Will the following JavaScript code work? *

```
var js = (function(x) {return x*x;}(10));
```

○ A) Exception will be thrown

○ B) Memory leak

○ A) setState

○ B) render with arguments

● C) props

○ D) PropTypes

✓ How can you access the state of a component from inside of a member function? 1

○ A) this.getState()

◉ B) this.values

○ C) this.prototype.stateValue

○ D) this.state

✓ How many elements does a react component return? * 1

○ A) 2 Elements

◉ B) 1 Element

○ C) Multiple Elements

○ D) Depends on it's KARMA.

✓ What is the use of "webpack" command in React.js? * 1

○ A) The "webpack" command is used to transpile all the JavaScript down into one file.

○ B) It runs React local development server.

◉ C) It is a module bundler.

○ D) None of the above.

✓   What will happen if you render an input element with disabled = {false}? *   1

○ A) It will be rendered as disabled

○ B) It will not be rendered at all

◉ C) It will be rendered as enabled

○ D) You cannot set it false.

✓   We can update the state in React.js by calling to setState() method. These calls are: 1

○ A) Synchronous in nature.

◉ B) Asynchronous in nature.

○ C) Are asynchronous but can be made synchronous when required.

○ D) None of the above.

✓   In which of the following condition, the React.js Lifecycle method static getDerivedSateFromProps(props, state) is called?   1

○ A) The component is created for the first time.

○ B) The state of the component is updated.

◉ C) Both of the above.

○ D) None of the above.

✓ Which of the following statement is correct about the Bootstrap wells?

A) By default, the size of wells is medium.
B) Using .well-sm and .well-lg classes, we can change the size of wells.
C) The .well-sm class is for small wells, and the .well-lg class is for large wells. And both classes should be used in conjunction with .well class.

○ 1. Only A

○ 2. Both A & C

Bootstrap wells are a feature of the Bootstrap framework that adds a rounded border around an element with a gray background color and some padding

○ 3. Both B & C

◉ 4. All A, B and, C

/1

✓ Which of the following is bootstrap's global default font-size? *
Select one:

○ A) 10px

◉ B) 14px

○ C) 12px

○ D) 13px
